G Permits, exclusions & assumptions

PERMIT REQUIRED? ☐ Yes ☐ No	PERMIT PULLED BY	PERMIT FEE PAID BY	FINAL INSPECTION DATE
--	------------------	--------------------	-----------------------

Work is performed to the applicable plumbing code and inspected before final payment. Unless an allowance is listed, this estimate excludes: drywall, tile, paint, or finish repair after access cuts; concrete, asphalt, flooring, or landscaping restoration; code upgrades the inspector requires beyond the listed scope; hazardous material handling or abatement (asbestos, lead, mold); and work by other trades (electrical, framing, HVAC, utility gas-meter changes).

Concealed conditions found after opening (corroded lines, hidden leaks, rot, or non-code work) are quoted separately by change order. This estimate assumes adequate access, a working main shutoff, and no obstructions not visible at inspection.

LABOR WARRANTY TERM	MATERIALS WARRANTY (MANUFACTURER PASS-THROUGH)	SPECIAL-ORDER CANCELLATION / RESTOCKING POLICY	

This estimate is valid for 30 days from the issue date; pricing may change after that with material costs. Any change to scope requires a signed change order with a revised price before that work proceeds. A lien release is furnished for each portion of work upon payment for that portion. A three-day right to cancel applies where required for in-home or off-premises sales.
